Common Man

Black Country Communion

Lord won't you help me
Make it through the night?
No one can hear me
Lead me to the light
You are the reason
I am here today
Love is the answer
Take me far awayOn my own I'm no better than
All alone
I'm a common manWhere are you brother?
I'm feelin' kinda low
Sister and mother
I want to let you know
Can't break the chain
It comes from deep within
Live through the pain
That's underneath my skinOn my own I'm no better than
All alone
I'm a common manCalled by the Siren
Down by the sea
Ghost in the distance
It's callin' me
You are the reason
I am here today
Love is the answer
Take me far awayOn my own I'm no better than
All alone
I'm a common manOn my way
I will all I can
I will stay
Just a common man
