

# Got Everything

Wiz Khalifa

Baby I go, hard  
So hard, sometimes it's hard to tell whether not I'm even on my job  
Most of the time I'm running 'round, either that or I'm gone  
Some of these people hating, but we don't see 'em at all  
Cause we done made it, too far  
Got something to say then fuck 'em  
Ain't trying to lose out on all of this for nothing  
I'm usually just balling and shit, whatever I want, I'mma get  
No time to count the money that I got because all of it's getting spent  
And all of my niggas grind so all of us getting rich  
And most of these niggas fly but all of 'em ain't the shit  
That's why you holding me down, been doing it ever since  
Only one I wanna be 'round and counting up all these chips...wit'  
[Hook x2: Courtney]Whatever you want boy, I got it, got it  
Got everything you need, ain't no doubt about it  
I'm everywhere you be, I can't see you without me  
Got everything you need, ain't no doubt about it  
[Verse 2: Wiz]  
And I, swear you deserve a wedding ring  
Can't ever see you choosing nothing over instead of me  
Won't ever leave you, you're the one I need so that's how I'm gonna treat you  
Take you places where they using different language to greet you  
Smile and shake when they meet you  
Lot of cake but you got a lot of love from me and when I'm home, you can't get enough of me  
Cause even when we both tired, you still put up with me  
Ain't going nowhere for sure, feel like you stuck with me  
Swear I feel lucky, I get anything I want  
And if I need it then you got it, if I say it then you trust me  
Don't see you much but when I do, I need your love and I'mma need it in a rush  
[Hook x2][Bridge: Courtney]Baby I can't break your heart, make you wait no more  
Anytime you need me, I'll be right there for sure  
You don't even have to call me, just say my name  
I'll be right there waiting for you  
[Hook x4]
