Roll Out

Kid Ink

I know they ain't know what I'm all
Sorry , excuse me, I'm feeling right now
Soon they gonna understand it
Tried to do it like me
You can tell 'em I'm a beast
I'm a dog,then let me off the leash
Now I'm coming for 'em all
Man I need another drink
It's the last call
Just give me a minute
Let me show 'em how I bought
And we'll roll out
Let's roll out
Let's roll out
Let's roll out
We can roll outLive, reporting from the cockpit
Red eyes but I'm trying to get my mind clear
Sell a praying like we just won a contest
No contest, motherfuckers couldn't digest
What I'm on, man my own
Benz on that, you ain't gotta blow my horn
Paint a perfect picture like Frida Kahlo
Red or green pill on a trip just swallowed that
And y'all had a time in your life
On me, no string up, high as a kite
Watch your mallet turning straight girl
Right into a gike soon you will understand
By the end of the night, tell 'emI know they ain't know what I'm all
Sorry , excuse me, I'm feeling right now
Soon they gonna understand it
Tried to do it like me
You can tell 'em I'm a beast
I'm a dog,then let me off the leash
Now I'm coming for 'em all
Man I need another drink
It's the last call
Just give me a minute
Let me show 'em how I bought
And we'll roll out

Let's roll out
Let's roll out
Let's roll out
We can roll outJust sayin' I need to get a point across
Somebody find these niggers 'cause they fucking lost
Tryin' to be the boss, couldn't pay the cause
Let my chain speak for me, we don't gotta talk
I go to the bottles, hallow, smoking on diablo
Smelling like patrone,mug jugs and carlone
Up and away new generation of polishing
So ready to roll, and rock out
These lambs can't ball like the Indie A lockout
Hit them in the head, might pull a knot out
Show these motherfuckers what they not about
Tell 'emI know they ain't know what I'm all
Sorry , excuse me, I'm feeling right now
Soon they gonna understand it
Tried to do it like me
You can tell 'em I'm a beast
I'm a dog,then let me off the leash
Now I'm coming for 'em all
Man I need another drink
It's the last call
Just give me a minute
Let me show 'em how I bought
And we'll roll out
Let's roll out
Let's roll out
Let's roll out
