

# Willie, Waylon And Me

David Allan Coe

I'd heard The Burritos out in California  
Could fly higher than The Byrds  
Roger McQuinn had a 12 string guitar  
It was like nothing I'd ever heard And The Eagles flew in from the west coast  
Like The Byrds they were trying to be free  
While in Texas the talk turned to Outlaws  
Like Willie and Waylon and me, hey Well, they say Texas music's in the make  
And we've been making music that is free  
Doing one night stands, playing with our bands  
Willie, Waylon and me, oh Mad Dog They say The Beatles were just the beginning  
Of everything music could be  
Just like The Stones I was rolling alone  
Like a ship lost out on the sea And Joplin would die for the future  
And Dylan would write poetry  
And in Texas the talk turned to Outlaws  
Like Willie and Waylon and me, hey My name is David Allen Coe and I'm from Dallas Texas They say Texas  
music's in the make  
And we've been making music that is free  
Doing one night stands, playing with our bands  
Willie, Waylon and me, Big Jim I'd heard The Burritos out in California  
Could fly higher than The Byrds  
Roger McQuinn had a 12 string guitar  
It was like nothing I'd ever heard And The Eagles flew in from the west coast  
Like The Byrds they were trying to be free  
While in Texas the talk turned to Outlaws  
Like Willie and Waylon and me
