Medicate

Opio

I've been lying awake at night
I've been hoping that I'm alright
I've been winding myself too tight
Wondering if I will sleep tonightNever thought things would get like this
Always hoping that they'd work out
Still ingesting the wrong amount
Now I seem to be filled with doubtI cannot stop this ride
I'm growing cold inside
I shouldn't let it slide
Will sickness be mineThis should not be my weight to bear
Go on acting like I don't care
Stop this high, I wouldn't dare
I have earned and deserve my shareThings like this happen every day
While I'm in there I feel okay
But you say I should get away
Let me go for just one more dayI cannot stop this ride
I'm growing cold inside
I shouldn't let it slide
Will sickness be mineI cannot stop this ride
I'm growing cold inside
I shouldn't let it slide
Will sickness be mineI've got to medicate myself
I'm not concerned about health
It covers up what I've been dealt
It seems the only wayI've got to medicate myself
It's been the only thing that helped
Must cover up what I have felt
It seems the only wayI cannot stop this ride
I'm growing cold inside
I shouldn't let it slide
Will sickness be mineI cannot stop this ride
I'm growing cold inside
I shouldn't let it slide
Will sickness be mineSickness is mine
Sickness is mine
Sickness is mine
