

# As The Time Passes By

[Alogia](#)

As the time passes by,  
You wonder where we're standing now  
Are we in the eternity? Someday when all of good days are gone,  
You will realize where we are. Is the nature cheating us  
And everything is just a game  
Or we are just a part of it? Why does every story has its end  
Is there a second chance  
Or my feelings are deceiving me?
