Over

Tarkan

Sorry can be the hardest word
When you know youre wrong
Shes heard it all before
with every word unspoken
Each moment comes undone
You can feel that she is goneOOO
Cant get you out of my mind
just cant move onOh Im broken
So this is how I fall
Too late for sorry
You cant hear me call
Oh no now I cant go back its
Over, overWhen your hearts not open
You cant see what youve got
Or you started from
It makes no sense that I just turned
walked away but I did
How did I just give inOOO
Cant get you out of my mind
just cant move onOh Im broken
So this is how I fall
Too late for sorry
You cant hear me call
Oh no now I cant go back its
Over, overI should let you know
Without you Im so lost
All alone so cold without you
How did I ever let you go
How did I ever let you go[Chorus]Oh Im broken
Too late for sorry
Oh no, is it really over?
