

If I Only Knew

Tom Jones

Yeah

Yeah

Home grown, on the bone

All the channels show the same old war zone

As I walk alone in the city

Makin' me an offer, now don't they look pretty

New cinema

Live action, all the noise of attraction beats up

On the streets, the sellers do mark up

Better than tellin' em off, don't stock up

Shark, but they don't bite

All that matters is you're not here tonight

And now that I wonder

Am I gonna dig a hole ten feet under

Under sea, under me, under you, under we, undivided

Undecided

If I only knew

What I could do

To make you, make you love me

To make you, make you love me

If I only knew

What I could do

To make you, make you love me

To make you, make you love me

Up north where the snow grows colder

I travel onward 'cross the border

Looked up a girl that I once knew frozen

I found it out that it was chosen

To be the follower of the deity

Make myself scarce while they

Come to plea bargain for my body and soul

All the flames go around, surround me

I won't go, I need the ozone

I wanna cuddle up behind your backbone

I never stay long where I'm not wanted

I fell haunted

Yo brother

Where ya gonna go

Back to the war zone

To break down the walls
If I only knew
What I could do
To make you, make you love me
To make you, make you love me
If I only knew
What I should do
To make you, make you love me
To make you, make you love me
If I only knew
What I could do
To make you, make you happy
To make you, make you happy
If only I knew
what I should do, yeah
To make you, make you love me
I bared my soul to the golden traces
Went to the forest of the holy places
Love me, love me
And now I wonder
Am I gonna dig a hole ten feet under
Under sea, under me, under you, under we, undivided
Undecided
Yeah
Yeah
If I only knew
What I could do
To make you, make you happy
Make you, make you happy
If I only knew
What I should do
To make you, make you happy
To make you, make you happy
If I only knew
What I could do
To make you, make you love me
If I only knew
What I should do
To make you, make you love me
If I only knew
What I should do
If I only knew
What I should do
If I only knew
