It's My Time

Jade Ewen

I've been down, down so long
But those days are gone now
I've got the will, I've earned the right
To show you it's my time tonightIt's my time, it's my time
My moment, I'm not gonna let go of it
My time, it's my time and I'll stand proudThere's nothing I'm afraid of
I'll show you what I'm made of
Show you all it's my time nowI'll break through, I've made my move
And my faith is strong now
I've got the heart to reach the heights
To show you it's my time tonightIt's my time, it's my time
My moment, I'm not gonna let go of it
My time, it's my time and I'll stand proudThere's nothing I'm afraid of
I'll show you what I'm made of
Show you all it's my time nowI've got the will, I've earned the right
Tonight, tonightIt's my time, it's my time
My moment, I'm not gonna let go of it
My time, it's my time and I'll stand proudThere's nothing I'm afraid of
I'll show you what I'm made of
Show you all it's my time now, now
Show you all it's my time now
