Angel in Disguise

OMC

Ceali is gone away
And she's never comin' back here again
I understand, I know where you're comin' from
So, take your time
You've planned this since the first time we met, ohAre you ever comin' back?
Are you ever comin' back?
Are you ever comin' back?
Are you ever comin' back?
Are you ever comin' back?
Are you ever comin' back again?First time I saw you, you were crowned in silver
Your hair full of fire
Guess you would have been a goddess
[Unverified] I would fortify and this shitI was more than content
Ten times my eyes glanced upon your temple
But I could never imagine your deep fantasies
In case you really had another lover, another brotherFantasize, you're unique and pure
The words you speak, chocolate coated whispers
You have a style so unique and pure
The heavens up above, I think I'm infatuated by your spiritWell, ten times my eyes glanced upon your temple
Well, ten times my eyes glanced upon your templeTime flies when you're havin' fun
Time flies when you're havin' fun
Time flies when you're havin' fun
Well, time fliesCeali's gone away
And she's never comin' back here again
I understand, I know where you're comin' from
Just take your time
You've planned this since the first time we met, ohAre you ever comin' back?
Are you ever comin' back?
Are you ever comin' back?
Are you ever comin' back?
Are you ever comin' back?
Are you ever comin' back again?
