

# A Sea to Suffer In

## My Dying Bride

The fields of blood I'd left  
They mean nothing to you  
That war left scars on me  
Without you now, I'm free I'd found out what you'd done to me, girl  
I hate with as much passion as I love  
And so now, your time's come, for me girl  
The end. Your end. And my birth  
Walk away. Laughing away  
Remember you always, and wonder why? I'll suffer in your sea  
Your ocean bleeds into me  
I'll fall through your endless sky  
But never, ever cry  
Wounded by your cruelty  
Yes, I'll suffer in your sea
