

# Give It Up

[Cyndi Lauper](#)

Pressure on me, can't get out  
Situation, it's a melt down  
Nine to fivin', wanna shout  
New direction, got to get to high ground I've got to get back to the floor  
Just grab my keys and pop the door Gonna give it up, get on down  
Little by little going to turn it around  
Gonna give it up, get on down  
Little by little going to turn it around Wash the week out of my mind  
Slap my face on, and then I feel sublime  
Put some sounds on to unwind  
Caught the moment just about the right time I've got to get back to the floor  
Just grab my keys and pop the door Gonna give it up, get on down  
Little by little going to turn it around  
Gonna give it up and get on down  
Little by little going to turn it around Make my heart sing like a wild thing Give it up and get on down  
Little by little going to turn it around  
Give it up and get on down  
Little by little going to turn it around Give it up, give it up  
Give it up, give it up, give it up  
Give it up, give it up
