

# Just A Motion Away

Gino Vannelli

Sometimes you win sometimes you lose  
Ain't no turnin' back for me and you  
Don't look over your shoulder  
No time for regrets You got your demons I got mine  
Our paths have crossed at a crucial time  
Suddenly we're older  
Scared of what's ahead We were looking for the answers in all the wrong places  
But now the chance is knocking on our door  
To grab hold on to what were reachin' for It's just a motion away  
It's just a motion away  
It's just a motion away No need to wonder where the future lies  
It's right before our very eyes  
Don't even think it over  
Just say yes We were clinging to such old cliches and old familiar faces  
now they're only shattered dreams  
So let's dry our eyes and walk away.... clean It's just a motion away  
It's just a motion away  
It's just a motion away Now don't you think it over.. just say yes  
We were lookin' for the answers in all the wrong places  
But now the chance is knocking on our door  
To open up our aching hearts once more It's just a motion away  
It's just a motion away  
It's just a motion away
