

Bite the Wax Tadpole

Tub Ring

Last night, I awoke with all the answers then quickly
I grabbed hold of pen and paper to write down,
So in the morning I wouldn't forget
Next day, I looked over what was written and oddly
it was only ones and zeroes, but perfect,
in the fact that it completed my set. Product of life I've been told,
theories are stagnant and old
time to demystify something new
necessity leads us to change
what we discover is strange
solely depending on point of view tonight, tonight
I turn out my light and dream of carbon and protein
which increase, my might
research avoids some regret,
predicting what we will get
error accept and therefore gone.
physics just hinder the dream,
bite the wax tadpole it seems
progress continues and marches on tonight, tonight I turn out my light and dream of vitamins and haircuts and
genetic delight last week I was working in my kitchen when oddly
I discovered cold fusion,
so I wrote down the process on the back of my hand.
next time when the recipe repeated I still thought
that something else was needed
cause texture and flavor were still quite bland. Product of life I've been told
theories are stagnant and old
time to demystify something new
necessity leads us to change
what we discover is strange
solely depending on point of view Tonight, tonight
I turn off my light and dream of hygiene and posture
which make me seem right
Research avoids some regret
predicting what we will get
error accepted and therefore gone
physics just hinders the dream,
bite the wax tadpole it seems
progress continues and marches on
Tonight, tonight

I turn off my light and dream of carbon and protien
which increase my mightI dreamed I was
swimming in the ocean
and came face to face
with a blue whale.
It frightened me the size that it would grow.
And I found my purpose,
I must prevent this,
before he hurts us.
