

Just Ace

Grinspoon

Since, since, since, since you're gone away
I hope that you had a better day
Tried to call round the other day
Instead I had a go-kart
Go-kart living in another space
Mistake, yeah
I hope the police will go away
I hope the police will go away
Their sirens bug me
And so do all their radars
Radars living in another space

Mistake, thanks I'm over it
Yeah, yeah, yeah, yeah
Yeah, yeah, yeah
Sweet child, you're such a princess now
I love the rainbow on your brow
I love your rainbow
Oh no it's winter
Winter, living in another space
Mistake, thanks I'm over it
