Evacuate My Heart

Shontelle

It's a natural disaster
But the news didn't warn me, me, me, me
I let down all my walls
Thought it was okay to let you win, win, win, win
Storm is coming in to view
Looking for my panic room
Running scared you on the loose
Hear alarms I need to move
'Cause I'm not trying get hurt
And its going that way once again, gain
Evacuate my heart boy
Evacuate my heart boy
Lights are fading black
My heart's on attack
Evacuate my heart boy
Evacuate my heart boy
Head to the right for the exit sign
Evacuate my heart
Heart is on the line
Running out of time bomb threat
Heart is almost broke
Someone throw a rope
Evacuate my heart boy
Evacuate my heart boy
Head to the right for the exit sign
Evacuate my heart
Smoke is rising need to breathe
And this situation ain't for me, me, me, me
Didn't realize the harm
That you put me in emergency, cy, cy, cy
This isn't another drill
Not again, ain't called for thrill [unverified]
Ruin everything I built it was all good up until
You decided to destroy any trust I had it went away, yeah
Evacuate my heart boy
Evacuate my heart boy
Lights are fading black
My heart's on attack
Evacuate my heart boy

Evacuate my heart boy
Head to the right for the exit sign
Evacuate my heart
Too many times I let someone break in
Just to wreck this heart of mine
You gotta get out
I'm calling a red alert this time
Evacuate my heart boy
Evacuate my heart boy
Lights are fading black
My heart's on attack
Evacuate my heart boy
Evacuate my heart boy
Head to the right for the exit sign
Evacuate my heart
Evacuate my heart boy
Evacuate my heart boy
Head to the right for the exit sign
Evacuate my heart
Evacuate my heart boy
Evacuate my heart boy
Head to the right for the exit sign
Evacuate my heart
