

Cosmic Highway

The Workhorse Movement

I feel the air is gone
I'm breathing my way
Past the end I'm gone
Out on the runSomber waves of light
Now they caress me
The psyche taking flight
Release the loadOut on the highway
She took the high road
The skyway
She took the high roadThe cosmic high road
Ship is going down
I've lost some functions
The child is running outI'm on the run
Years that I have
Been under construction
Some changes I've allowed
I think I'm doneOut on the highway
She took the high road
The skyway
She took the high roadThe cosmic high road
