Little Friend

Second Come

A manhunt to find your own daughter
Buried underneath the water
Now they consult a psychic
Find how much I like it
And now I've found a little friend
And now it's just you and me
Borrow one and we will make three
I say we steal one more
Just like we did once before
And now I've found a little friend
It's too fast, this won't last
And to touch, hurts too much
And now I've found a little friend
Yeah
Ohh yeah
Yeah, yeah, yeah
And now I thought I told her
That she won't get much older
And now I've found a little friend
Yeah
And now it makes no difference
Yes, I am not quite in yet
And now it's on the table
'Cause she's perfectly able
And now I've found a little friend
Yeah
