

Trapped In A Box

No Doubt

Trapped in a box of tremendous size
It distorts my vision, it closes my eyes
Attracts filthy flies and pollutes in the skies
It sucks up our lives and proliferates lies

Trapped in a box

Trapped in a box, four walls as sky
Got a screen for a window 'bout two feet wide
My mind rides and slides as my circuits are fried
No room for thought, use the box as my guide

Trapped in a box

Trapped in a box

Watch the world as it flocks

To life's paradox

And we're all trapped in a box

I'm trapped in a box, I'm not alone

I know of others with a box as their home

Light only enters from a crack or a hole

This is not enough for a human to grow

Trapped in a box

Trapped in a box

Watch the world as it flocks

To life's paradox

And we're all trapped in a box

Always wanting a different view

Instant gratification for you

Reality gone with a single click

I just hope that, that switch won't stick

Trapped in a box my life becomes void

And all I thought for myself is now destroyed

Controlling my mind, what to eat, what to buy

Subliminal rules, how to live, how to die

Trapped in a box

Trapped in a box

Watch the world as it flocks

To life's paradox

And we're, we're all trapped in a box

Trapped in a box

Watch the world as it flocks

To life's paradox
And we're all trapped in a box
