Avenger

The Bamboos

in a minute they'll be coming for us
for us
some odd times, we will be turning
turn in
i don't wanna be their prisoner
i don't wanna get caught up again
take me down and i'll keep breaking out
and outaching, i keep running
aching behind your skin
aching, fever in the road
come now!
come around
oh!there's a man who's got something for you
for you
covered out in all your secrets
secrets
treat him like things you need to hear
holding on to broken souvenirs
pull the strings, start to reappear
appearaching, i keep running
aching behind your skin
aching, fever in the road
come now!
come around
oh! (x2)
