

# Equilibrium

## Nearfield

Hey, oh, oh equilibrium  
Oh noI think i found myself in a strange place  
Got me spinning like a satellite in outer space  
    Gravity keeps pulling me your way  
    I'm better in doubt  
    Cause before I was born like the player type  
    Going home to a different girl every night  
    I was stumbling tipsy fell into your life  
    I'm sobering nowFor the first time i'mma listen  
    To what my heart is telling me, no more tripping  
    I'm back on my feet, no one matters to me  
    So imma keep it steady now, I'mma keep it steady now  
    OhhhhI was upside down, couldn't balance in  
    Fell off the train, but I'm back on the track again  
    I swear it gets me going without a doubt, but now I'm evened out.  
Do you know what you are?Baby you're my equilibrium Baby you're my equilibrium  
    Baby you're my equilibrium  
    That's what you are, that's what you are  
ohhThere's no pressure when I'm with you I got room to breathe  
    Took a dive, went forever for stability  
    Forget the moon and the stars, you're my galaxy  
    You measure me out  
    And there's no way I, can be away for too long  
    To be without you, the scale would just be off  
    Girl I need you wanna keep you here forever  
    OhhFor the first time imma listen  
    To what my heart is telling me, no more tripping  
    I'm back on my feet, no one matters to me  
    So imma keep it steady now, imma keep it steady now  
    OhhhhI was upside down, couldn't balance in  
    Fell off the train, but I'm back on the track again  
    I swear it gets me going without a doubt, but now I'm evened out.  
Do you know what you are?Baby you're my equilibrium  
    Baby you're my equilibrium  
    Baby you're my equilibrium  
    That's what you are, that's what you are  
ohhYour loves lifts me up off the ground  
    We're taking off so don't look down  
    In the atmosphere

You and I, we can fly I was upside down, couldn't balance in  
Fell off the train, but I'm back on the track again  
I swear it gets me going without a doubt, but now I'm evened out.  
Do you know what you are? Baby you're my equilibrium  
Baby you're my equilibrium  
Baby you're my equilibrium  
That's what you are, that's what you are  
ohh ... Equilibrium ... yeah
