

# Come To Milton Keynes

## The Style Council

May I walk you home tonight  
On this fine and lovely night tonight  
We'll walk past the luscious houses  
Through rolling lawns and lovely flowers Our nice new town where the curtains are drawn  
Where hope is started and dreams can be borne Let us share our insanity  
Go mad together in Community  
Boys on the corner looking for their supper  
Boys 'round the green looking for some slaughter We used to chase dreams, now we chase the dragon  
Mine is the semi with the Union Jack on In our paradise lost we'll be finding our sanity  
In this paradise found we'll be losing our way  
For a brave new day May I slash my wrists tonight?  
This fine Conservative night  
I was looking for a job so I came to town  
I easily adopt when the chips are down I read the ad about the private schemes  
I liked the idea but now I'm not so Keynes [Incomprehensible]  
[Incomprehensible]  
God bless you all, God bless
