Give Me Hope

New Politics

Advisory - the following lyrics contain explicit language:

Summer's come but I don't know why
It's so damn hard for me to, do things right
But maybe if you just let me try
I can make you a believer, make you a believerYou keep me hanging on the edge of time
You keep me hanging on the edge of timeGive me hope, and give me love
Give me whatever I want,
'Cause what I want is someone, like you
So give me truth
And let us pretend, that we made love til' the end
So give me hope.Love til' the end,
We made love til' the end
We made love til' the endSo tell me baby, what's your point of view,
Like how am I doing here
Does it lead anywhere?
And is there anyway, for me to be sure
I can make you a believer, make you a believer.You keep me hanging on the edge of time
You keep me hanging on the edge of timeGive me hope, and give me love
Give me whatever I want,
'Cause what I want is someone, like you
So give me truth
And let us pretend, that we made love til' the end
So give me hope.What she wants is a funky rock and roll'uh
She know she got the look,
That's why she give the cold shoulder, and
She keep it hot, even in December,
This ain't about the weather, you too hot
Get out to sweat'uh, I've got a duet'uh
Without ya sweater, it's so much better
We can all get wet, or just all get wetter
It really doesn't matter I can make you a believer,
You know what they say about rock and roll..Give me hope, and give me love
Give me whatever I want,

'Cause what I want is someone, like you
So give me truth
And let us pretend, that we made love til' the end
Let us pretend that we made love til' the end
So give me hope.
