Forever In My Heart

CeCe Peniston

I've been thinking, have you been thinking?
Feels like I'm falling and I need to know
Have you been wishing, all the things that
I've been wishing?'Cause if it's true, baby, what do we do?
'Cause I've never been in love before
So hold on tight to me, never let me go
'Cause I wanna give you the biggest part of me
You will always be, you will always be forever in my heartI've been waiting, anticipating you in my arms
I need you close to me, when I looked into your eyes
I knew right then and there I found what I've been searching for
Nobody but you could make me feel the way I do'Cause I wanna give you control of my heart
Lead me to your love, I knew it right from the start
'Cause I wanna make you the biggest part of me
You will always be, you will always be forever in my heart
