With The Lotus

Dark Lotus

With the Lotus
You can see anybody in my mothafuckin' Juggalo family
Yeah!
So try bringing that shit on mothafucker
That's right
These six petals will unfold the Black Rain on that ass
[Anybody Killa]With my Lotus
We can make you all believe
That it's time for the pod to rise and mislead
[Jamie Madrox]With my Lotus
I can drink from the liquid mirror
And reveal the other half of me that never seems to appear
[Violent J]With my Lotus
I gorilla press cars
I rock write a Lotus on my chest made of red scars
[Monoxide Child]With my Lotus
We steal a sun and hide it in our pockets
And leave your bleedin' world hidden in total darkness
[Blaze Ya Dead Homie]With my Lotus
We walk on water and spit acid
And melt your fuckin' balls like a piece of plastic
[Shaggy 2 Dope]
With my Lotus
I can make the clouds split
Have the rain drops line dance with the moon dust a jig
[Monoxide Child]With my Lotus
I disappear in the action of run and hit
And leave victims on their blind side
They never see me coming
[Violent J]With my Lotus
Vampires flock to me
Because my blood is worth diamonds
And it's redder than ruby
[Chorus]With the Lotus
I can freeze fire tonight
I cut my petals in the moonlight
With the Lotus
I can freeze fire tonight
I cut my petals in the moonlight

[Blaze Ya Dead Homie]With my Lotus
I talk to the ghosts of fallen soldiers
Awaken all their souls with plans of taking over
[Shaggy 2 Dope]With my Lotus
I see the walls sweatin' and bleedin'
I know their
