

Did You Ever Feel Lonely?

Gary Moore

Did you ever feel lonely crying by yourself
Did you ever feel lonely when you're crying by yourself
When the woman that you're loving is with some body else You lie awake at night just calling out her name...
Yes, you lie awake at night just calling out her name
And you know your heart is breaking
And it's such a crying shame Did you ever feel lonely when you're crying by yourself
Yes, did you ever feel lonely when you're crying by yourself
When the woman that you're in love with
Is lying down with some one else You lie awake at night just calling out her name... Did you ever feel empty like
there is nothing left inside
Did you ever feel empty like there is nothing left inside
When you know that she won't love you
No matter how many tears you cry.
