

# Killer

## Airbag

KillerHere I am  
A self-made predatory man  
If you see me coming your way  
You better run  
I'll make you see, I'll tell you no lie  
And give it to you straight  
Pull on this trigger  
And get your blood on my handsChorus  
This is who I am, this is what I've become  
A disease that spreads to everything and everyone  
But I'm only here for the ride  
I'm here for the fun and I'll kill if I must  
If that's what it takes to stay on topSo here I am  
And I'm no ordinary man  
Cause I'm never slowing down  
I'll take what's mine  
I need it all and leave you for dead  
Hunt down the next prey  
And start all over again
