Stay

Sigma

Push and pull it, break apart
Always been this way from start
Synergy like crashing stars
Blame it on our magnetic heartsGimme all of your love
I need all your love
Gimme all of your love
Stay for me, baby
Gimme all of your love
I need all your love
Gimme all of your loveGimme all of your love
I need all your love
Gimme all of your love
Stay for me, baby
Gimme all of your love
I need all your love
Gimme all of your loveAll your love
All your love
All your loveNever felt this way
Like I'm falling apart
Something hard to explain
It's been there from the start
There's a chemistry
Like a burning star
When we're close I can't help it, babe
Magnetic heartOh, oh, oh
Oh, oh, oh
Oh, oh, oh
Oh, oh, oh
Oh, oh, oh
Oh, oh, ohGimme all of your love
I need all your love
Gimme all of your love
Stay for me, baby
Gimme all of your love
I need all your love
Gimme all of your loveAll your love
All your love
All your loveNever felt this way

Like I'm falling apart
Something hard to explain
It's been there from the start
There's a chemistry
Like a burning star
When we're close I can't help it, babe
Magnetic heart
