Far at Home (feat. Konu)

Nolan Rey

[Intro]

Hook:
Livin down in the West Coast,
Try to get home,
When Im already here,
Lost in a town I know
The California dream is gone
X2

V1
Every now and then I get a hint and I remember
While I am Stormy out there is perfect weather
I try to soak the sun
From my sunkin ship
While I'm underneath the covers
California dreamin
Living in a nightmare
Wanna make a change
So I gotta do whatever
To try to survive this day today
Going crazy in the golden state

Hook:
Livin down in the West Coast,
Try to get home,
When Iâ€™m already here,
Lost in a town I know
The California dream is gone
X2

V1:
Stuck in a foreign land
But I'm on native soil
Kinda crazy right
Like eating tin foil
And moon walkinâ€™ thru the streets
Naked sunrise
It's what it's doing to me
Poetry for your eyes

Callin out cuz the lighthouse has been gone
Compass cracked
Shattered glass
Tryinâ€™ to move on
Maybe don't really need em
Click to those before
They had the stars and some motivation
Nothing more

Hook:
Livin down in the West Coast,
Try to get home,
When Iâ€™m already here,
Lost in a town I know
The California dream is gone
X2

Outro:
West Coast
Iâ€™m already here
Town I know
Dream is gone

West Coast
Dream is gone...
