Flat On The Floor

Nickelback

Not like I need to depend upon anyone
Since I can see the lack of need for me to be here at all
One more the anthem for the know it allI won't be standin' up for long I better learn how to crawl
Learn how to crawl
In ten minutes I'll be layin' out flat on the floorLike I need to defend my own innocence
So what I did it, I admit it, and Im pleading the fifth
One more anthem for the know it allI won't be standin' up for long I better learn how to crawl
Learn how to crawl
In ten minutes I'll be layin' out flat on the floorEight minutes I'm losin' it a little bit
Five minutes your description might be startin' to fit
Three to go and I'm forgettin' all that I've ever known
I won't be standin' up alone I better learn how to crawlNot like I need to depend upon anyone
Since I can see the lack of need for me to be here at all
One more anthem for the know it allI won't be standin' up for long I better learn how to crawl
Learn how to crawl
In ten minutes I'll be layin' out flat on the floorI can't stand up at all
Can't see nothin at all
In ten minutes I'll be layin' out flat on the floor
