

Warm Melon

All the Little Pieces

warm melonVerse 1:

Leave the light on when you go
'Cause I'm afraid of my own shadow
Prop me up before you leave
Give me some kind of sweet relief

How am I gonna stay in one piece?Chorus:

Scattered 'round the floor in bits and pieces
Sortin' through the ways and sortin' through the reasons
Tryna' take control, but time is takin' it's toll on me
Ain't that easy to see what's meant to be
How am I gonna stay in one piece?
What's meant to be?

How am I gonna stay in one piece?Verse 2:

Sometimes the truth is hard to swallow
So the fear is what you follow

I lost my self in this cruel world based on lies that we've toldChorusBridge:

In one piece....what's meant to be....in one piece.....Chorus
