Faster Life (XPQ 21 Remix)

Funker Vogt

It's driving me forth without a rest
These feelings inside me I cannot control
An unknown force is controlling my fate
It provides me with this restless lifeI'm coming home to recover
But after a day I feel it again
I have to leave and go on a journey
To unknown places I haven't heard ofTravelling from place to place
My life is way too fast
I'm always on a race
And I wonder how long it will lastAnd this time I will not return
I will travel on to all these places
And it may be I find a place
A definite place to settle down
