Haley

NEEDTOBREATHE

If you don't know
just how you feel
dont say those three things that
you know I want to hear
if you dont know
just what to think
then put your thought away and
keep them out of reach

Haley dont hurt me
if you dont know
I could of move on a long time ago
your undecided, your eyes do show
Haley dont hurt me, if you dont know

if you dont know just where we are
if so just step away before we get to far
if you dont know just where you stand
dont brace the fall,cuz you may never want to land

haley dont hurt me if you dont know
i could of move on a long time ago
your undecided , your eyes do show
haley dont hurt me if you dont know

we're on and off again its more than I can stand
Just let me know if your for real this time
you voice is stuck again reminding me of when
we talked away into the night

haley dont hurt me if you dont know
i could of move on a long time ago
your undecided , your eyes do show
haley dont hurt me if you dont know
