

# Bleed Like Me

## Garbage

Avalanche is sullen and too thin  
She starves herself to rid herself of sin  
And the kick is so divine  
When she sees bones beneath her skin  
And she says

Hey baby can you bleed like me?  
Oh come on baby can you bleed like me?

Chris is all dressed up and acting coy  
Painted like a brand new Christmas toy  
He trying to figure out  
If he's a girl or he's a boy  
And he says

Hey baby can you bleed like me?  
Oh come on baby can you bleed like me?

Dittle takes bright scissors to her skin  
And when she does relief comes seeping in  
While she hides the scars she making  
Underneath her pretty clothes  
And she sings

Hey baby can you bleed like me?  
Oh come on baby can you bleed like me?

Therapy is Sweetie's brand new drug  
Dancing with the devils past has never been too fun  
Its better off then trying  
To take a bullet from a gun  
And she cries

Hey baby can you bleed like me?  
Oh come on baby can you bleed like me?

JT gets all fucked up in some karaoke bar  
After 2 drinks he's a loser  
After 3 drinks he's a star

Getting all nostalgic as he sings  
?I will survive?

Hey baby can you bleed like me?  
Oh come on baby can you bleed like me?  
Hey baby can you bleed like me?  
Oh come on baby can you bleed like me?

You should see my scars  
You should see my scars  
You should see my scars  
You should see my scars

Try to comprehend that which you?ll never comprehend  
Try to comprehend that which you?ll never comprehend  
Just try to comprehend that which you?ll never comprehend  
Try to comprehend that which you?ll never comprehend

You should see my scars  
You should see my scars
