

Don't Wanna Make A Move

Natalie Grant

Lord, please guide my steps
I commit my way to You
I won't make a move
Until I hear Your voice
I don't wanna make a move
I gotta be on guard 'cause
Who knows what's in the shadows
To try and keep me off of this road
And lead me astray
I want every step to be
In the right place at the right time
So I'm searching for You Lord
To guide me every day
I don't wanna make a move without the faith
Don't wanna make a move without the light of truth
In the twist and turns along the way
I don't, I don't, I don't wanna make a move without You
I don't wanna make a move, don't wanna make a move
You got me when I woke up today
I was turning through the pages
Looking for some wisdom
That might show me where You lead
Nothing short of You
Will satisfy my hunger
You can hear me crying out every night
From down on my knees

I don't wanna make a move without the faith
Don't wanna make a move without the light of truth
In the twist and turns along the way
I don't, I don't wanna make a move without You
In the still and quiet
I bow my heart, incline my ear
Anything You whisper
Lord, I want to hear
Lord, I need to hear You
I don't wanna make a move without the faith
Don't wanna make a move without the light of truth
In the twist and turns along the way

I don't, don't, don't, I will not make a move without You
I don't wanna make a move without the faith
Don't wanna make a move without the light of truth
In the twist and turns along the way
I don't, don't, don't, I won't make a move without You
I will follow You
Gonna do what You tell me to
I need You, Jesus
I don't wanna make a move
And I will follow you
I don't wanna make a move
I will follow you, yes
I don't wanna make a move
Gonna follow You
