

Radio Lover

Cheap Trick

Ooh yeah! Radio!
Give it up! Whoah! I've got a radio lover
I'm really rockin' in style
A high voltage lover
Together we'll go far
In the evening when I'm lonely
And sitting all alone
Wrap your headphone round
And now let me take you home
You're like no other lover
You come upon the man
In the morning when it's over
You go on with a twist of my hand
Woah!
I've got a radio lover
She's my rock n' roll queen
I found you at this number
I love it when you talk to me I've got a radio lover
In the evening when I'm lonely
And sitting all alone
Wrap your headphone round
And now let me take you home
You're like no other lover
You come upon the man
In the morning when it's older
You go on with a twist of my hand
Woah!
I've got a radio lover
That's my rock n' roll star
A high voltage number
Together we'll go far
Sweet Jesus!
Guitar! You know I wanna touch you
The way that you touch me
My radio's a-blasting
For all the world to see
Oh, take it to my bedroom
Baby love it has to mean
You can never walk away

You'll never leave here clean I've got a radio lover
She's my rock n' roll star
A high voltage lover
Together we'll go far
I've got a radio lover
She can slay your pain
She found me at this number
I love it when she talks to me I've got a radio lover
I've got a radio lover
I've got a radio lover
I've got a radio lover
Sweet Jesus!
