

Played Yourself

Brian McKnight

All you do is tell me lies
Can't you see I'm not surprised
That you think that I'm a fool
Hey
'Cause you think that no one sees
And you think you're playin' me
I just think that your confused
You're playin' you, baby You didn't think that I would catch you
You didn't know how I knew
You didn't think your girl would tell on you
You played yourself that way She was your bestfriend in your eyes
But she told me the flip side
Guess she wanted in my life
If you would've seen her plan
Would've known I was the man
That she desired to have
You were too blind to see You didn't think that I would catch you
You didn't know how I knew
You didn't think your girl would tell on you
You played yourself that way I waited
Look enough for you to throw your cards
You played it
But playin' didn't get you very far You didn't think that I would catch you
You didn't know how I knew
You didn't think your girl would tell on you
You played yourself that way
