

A.L.I.V.E.

Port Isla

Hot on the heels of the hurricane
I was licking my wounds, barely losing my way
But you pulled me out, pulled the wool from my eyes
And I never felt more alive And we never looked back

No, we never looked back

We put the pain in the past

No, we never looked back

No, we never looked back

Lord knows I want this to last(whoa)

I found love in the thick of it all

(whoa)

And I never felt more alive

We like to bask, and we headed out

We couldn't help but sing our song out loud

And we were just two shadows on the sun's goodbye

And never felt more alive And we never looked back

No, we never looked back

We put the pain in the past

No, we never looked back

No, we never looked back

Lord knows I want this to last(whoa)

I found love in the thick of it all

(whoa)

And I never felt more alive

(whoa)

I found love in the thick of it all

(whoa)

And I never felt more alive

From the moment you came

I was barred to the grave

With a hole in my back

Won't you save me again, today?

And we never felt more alive(whoa)

I found love in the thick of it all

(whoa)

I we never felt more alive
