Advisory - the following lyrics contain explicit language:

All you motherfuckers
Turn it up let it (bounce)
In the trunk let it (bounce)
Throw em up let it (bounce)
Yeah bitch This is what we do when
We verbally turn em out
With the speakers to the
Maximum baby just let it
Bounce now In a crowd let it (bounce)
Turn it loud let it (bounce)
Blow em out let it (bounce)
Yeah bitch This is what we do when I
Show em what I'm about
With the speakers to the
Maximum baby just let it
Bounce It's that evil rap nemesis
Putting together
Sentences
Faster than that hedgehog
Running on Sega Genesis Higher than the hoops of pegasus
And let the pencil hit the paper
Harder than a bus
Jerome Bettis it Let it be set it bit with the
Excellent rhetoric
My vernacular spectacular
Steb to me and I'll settle it
If mastery a language was
The goal then I'm ahead of it
You can't connect the checks
That I'm cutting down in
Connecticut My flow bezark rib cage
Gotta soulja's heart

Verbally a double barrel!
Shotty leave you blown apart
I'm such an animal they kick
Me off of Noah's Ark
Cus they keep on coming up
Shorter than Napoleon
BonaparteMe? I'm a tall dude never let you fall through
Hard as granite damnit
These bitches softer than dog foodShoot em up R2 drop so many bars you
Haters quit your job
Cus there's nothing to argue; now let itTurn it up let it (bounce)
In the trunk let it (bounce)
Throw em up let it (bounce)
Yeah bitchThis is what we do when
We verbally turn em out
With the speakers to the
Maximum baby just let it
Bounce now
In a crowd let it (bounce)
Turn it loud let it (bounce)
Blow em out let it (bounce)
Yeah bitchThis is what we do when I
Show em what I'm about
With the speakers to the
Maximum baby just let it
BounceWhite boy rap sargeant buzz bigger than Cartmen
Mentally a menace my brain's the size of a martian'sUsed to be broke as fuck at the mall looking for bargains
Now I got a gold card (cha-ching!) charge emStarted off small now I do it for the masses
Spit it greater incinerate em burn em to ashes
Now these new college kids think that they can match it
Bitch I drop classics all you droppin is classesWhos needs Hostra? Hip hops my donna school
Hotter than my mamas macaroni with some gaba gruel
Yeah I'm cocky as fuck, just being honest fool
Being modest isn't in a single moleculeIn my whole body whos touching me nobody
Now I'm up on iTunes taking your money
Give a shit my nose runny cus I spit it so sick
Now bounce turn it up in the whip cus you know we gonnaTurn it up let it (bounce)
In the trunk let it (bounce)
Throw em up let it (bounce)
Yeah bitchThis is what we do when we verbally turn em out
With the speakers to the maximum baby just let it
Bounce now
In a crowd let it (bounce)
Turn it loud let it (bounce)
Blow em out let it (bounce)

Yeah bitch This is what we do when I
 Show em what I'm about
 With the speakers to the
 Maximum baby just let it
 Bounce I'm that dude with a 40 while
 Everybody sipping rozay
 No filter on my mouth not a thing I
 Won't say
 Check the clocks like Coldplay know
 What time it is
 And my future still looking good like
 Marisa Tomei Beating me? No way
 Bitch you better ease up
 Who needs a label the only thing I'm signing is a free nut I'm a beast why would I compete with these chumps
 I'm an 8 ball they only equal the key bump
 Keep my bars high rap in the car lots
 Private school training at the school of hard knots They pop the hard rock I'm
 Making your jaw drop
 So high, I'm up in the sky
 With star fox
 Hip hop veteran rockin with
 David Letterman
 Bad to the bone you can
 Check my damn skeleton Webby ready as ever you
 Better let me in
 Come on bounce let me tell
 Em again so just Turn it up let it (bounce)
 In the trunk let it (bounce)
 Throw em up let it (bounce)
 Yeah bitch This is what we do when
 We verbally turn em out
 With the speakers to the
 Maximum baby just let it
 Bounce now
 In a crowd let it (bounce)
 Turn it loud let it (bounce)
 Blow em out let it (bounce)
 Yeah bitch This is what we do when I
 Show em what I'm about
 With the speakers to the
 Maximum baby just let it
 Bounce
