Looking Out

Two Nice Girls

(Laurie Freelove)
It's a type it's a kind
It's a loan of love
Looky here this ticker bare
A heart on loan for love
If anyone took a bite
There'd be none to spare
Cooler now come about
Don't turn your face away
You talk alot and move around
But you seem what you say
Do it all go alone
Just take one look my way
(Chorus)
I turned around
I saw her
Just standing there
I could be
All night again
Just looking out
So, she said so I see
I've heard this all before
Upon a time long ago
In fact, I know for sure
A photograph, a colored charm
A thousand things say so
Crazy eyes holy heat
Tonight won't waste away
Waiting out tough as nails
On ground as soft as clay
The two of us starting through
A mist as thick as rain
(Chorus)
There she was
Standing under the pale patio light
It was yellow
Against the heat and black of intense August drain
She stood there smoking
While I watched it rise, rise in the air
