

# NightLight

## Redeyes

Oh whoa, leave your nightlight on  
You don't have far to go  
Oh whoa, leave your nightlight on  
You don't have far to goOut the door, down the hall  
That is all  
Down the hall, down the stairs  
Pretty soon, you'll be thereOh whoa, leave your nightlight on  
You don't have far to go  
Oh whoa, leave your nightlight on  
You don't have far to goDown the stairs  
Take your time, don't be scared  
You'll be fine, nothing's changed  
In the dark, it's all the same
