Faded

Bear Mountain

I'll fake it so bad and spend the time that we need
To build a house on the hill that falls to the sea
I'll spend my whole lifetime trying to be
And I'll fake it with you if you'll take it from me

It's like you never come home
Well baby I don't think I can be
Cause if the future is too long
The better side of me

I'm faded and so it don't seem right
I'm too faded and so I can't see my life
You're a rock but I'm the one leaving
It's too bad cause I've never been this deep in
I'm faded and so I can't see my life

We've been believing that we were too strong to need
The type of treatment that pulls your heart from your sleeve
I drew a fault in the line that we didn't see
Just in time as I crawled back to find you asleep

It's like you never come home
Well baby I don't think I can be
Cause if the future is too long
The better side of me

Well I've been thinking 'bout
The girl across from me
I've been thinking about
The life that we didn't lead

I'm faded and so it don't seem right
I'm too faded and so I can't see my life
You're a rock but I'm the one leaving
It's too bad cause I've never been this deep in
I'm faded and so I can't see my life
