

Go Public

Mila J

To your friend your lying
To your rech your lying
On the phone your lying
To yourself your lying
How you fail I'm trying
To belive were vibing
Why do we keep hiding
Baby we can fight it

Oh

Your harmonizing on the radio
Baby let's just try it
Make ourself official
The can mistake us and say us
We're not a miracle
But the more they see us
It's as if they watched a show
We fuss, we fight, before we rise we act like were in love
You can tell from everybody
We fuss, we fight, before we rise we act like were in love
You can tell from everybody

[Chorus]

This love is ridiculous
It's conspicuous it is making us public
This love is ridiculous it is ripping us
And it's taking us public
This love is ridiculous
It's conspicuous it is making us public
This love is ridiculous it is dangerous and it's taking us public
To myself I'm lying
Every now I'm crying
I'm even denying
That I'm slowly dying
In these lights I'm shining
Off these lights I'm smiling
People start to see there's something
That I'm denying
