

# If I Don't Leave Here Now

## Indigo Girls

They say if it ever was it's in there still  
You can dig and fill and never will be full  
Trying to get that good again Your last fifth of jack or cigarette  
The time you be the farm before you lost it all  
You want that feeling Back you go against the wind and good advice  
Killing yourself to stop from running out of life But if I don't leave here now  
I will never get out of this place  
Baby believe me now  
There's no dragon to chase  
Even looking at your face  
In front of me  
If there ever was one there could be two  
You and you and you a blue sky could be bluer  
A whiter shade of white  
But while you pour it on you pour it out  
You empty everything you might have saved instead  
For your loneliest night Back you go against the wind and good advice  
Killing yourself to stop from running out of life But if I don't leave here now  
I will never get out of this place  
Baby believe me now  
There's no dragon to chase  
Even looking at your face  
In front of me  
And when it hits the papers  
The tongues start wagging like it can't be happening  
The doctors giveth and they taketh away  
And when they do you'll find you stand up everyman  
Goes looking for his heroin  
It happens every day  
Around every bend  
Again and again
