

I Remember

[Rich Robinson](#)

I remember
You dropped your soul
Left in on the ground behind you
Never could go home Lived with a person once and I watched you disappear
I've always been there for you no matter who you became You forgot yourself
Traveling across the world
Never knew where you left and
Your soulless life unfolds Lived with a person once and I watch you disappear
I've always been there for you no matter who you became Lived with a person once and I watch you disappear
I've always been there for you no matter who you became
