

# Dreamstate Emergency

## Mnemic

I have not slept for many days  
Yet I have dreamt of the unseen  
Now I have found this place in myself  
I have dreamt of no control And then I will see what the hate, it can take  
I will stand up to see what I really can be  
I'll cry if I need to but I'll proceed to  
A state of hate and to be a superior me I have dreamt of this for so long  
I feel my inner self will grow strong And so I will break down, I'm blind to your ideas  
I don't want to be, I can't stand the pain  
And then I will see what the hate it can take  
I will stand up to see what I really can be I have dreamt of this for so long  
I feel my inner self will grow strong  
If I can only be what they want  
I'm me, exploding into history I dream of leaving this  
Kill this and never come back  
Never fuckin' return I dream of me, kill this, my dream  
I dream of me, kill this, my dream  
I dream of me, kill this, my dream  
I dream, I dream of me I have not slept for many days  
Yet I have dreamt of the unseen  
Now I have found this place in myself  
I have dreamt of no control And then I will see what the hate it can take  
I will stand up to see what I really can be  
I'll cry if I need to but I'll proceed to  
A state of hate and to be a vision of me I have dreamt of this for so long  
I feel my inner self will grow strong  
If I can only be what they want  
I'm me, exploding into history
