

Cold And All Alone

[MxPx](#)

I know I'm mean but I'm real sorry
I didn't mean to make you cry
I feel so bad by then it's too late
You're hurt I'm mad, is this goodbye? I know I'm mean but I'm real sorry
I didn't mean to make you cry
I feel so bad by then it's too late
You're hurt I'm mad, is this goodbye? I've dug down far too deep now
I've dug down far I'm losing sleep You know it's hard you know I'm trying
To understand to do what's right
I don't like to see you crying
I don't like it when we fight I've dug down far too deep now
I've dug down deep I'm losing Cold and all alone
Out there on your own
Cold and all alone
Living on your own I've dug down far too deep now
I've dug down deep I'm losing sleep
