

Hidee Ho

Tapes 'n Tapes

Win my diamonds and will your bones
They've been up around a few All of these liars they come in the night
It's all been abused
I been down, been around holding Hide
Hide
Hide I am your house and you are my soul inside it's true
All of these signs and all through the night it's all I been abused
Hand I been down been around holding Hide hide
Hide hide
Hide hide
