Adventures

Corduroi

I'm looking out
In every way
I'm searching here
For some display
I couldn't find
The hidden art
To tell me how
Adventures start
I never knew where to find
The answer to a really good time
I never knew just where to look
I never knew just what it took
I never know where to start
Adventures
Adventures are
So they say
In every part
Of every day
But out of time
And out of place
It's got me here
Stuck in space
I never knew where to find
The answer to a really good time
I never knew just where to look
I never knew just what it took
I never know where to start
Adventures
So how am I
Supposed to find
Adventures here
Where I'm confined
I'm in a spot
So un-exposed
To adventures' doors
That always close
I never knew where to find
The answer to a really good time
I never knew just where to look

I never knew just what it took
I never know where to start
Adventures
Adventures
