

# Stars

## Quanteisha

Woke up this morning and I saw my future  
Everyday my dreams get a little bit closer  
Breaking down the walls cuz the fear is fading  
It's my time, and there's no more waitingI never thought it could be like this  
Seeing all the things that I thought I'd miss  
now I know now I know for sure  
Ain't lettin' go cuz this is itWas the girl that was searching for direction,  
So scared, so afraid of rejection  
Feel the blood rushing through my veins  
I can feel it coming imma make a changeCHORUS:  
With the stars where I wanna be  
just have to believe  
so high off the ground  
don't wanna come down  
it's all that I really needgonna give it all I got  
gonna put my heart in it  
this is what I want  
no I'll enver quit  
wom't give up so don't try to convince me,  
ain't backin' down no nothing's gonna stop meI never thought it could be like this  
Seeing all the things that I thought I'd miss  
now I know now I know for sure  
Ain't lettin' go cuz this is itI've been patient  
I've been waiting  
Cuz I know I was born to fly  
even gravity won't bring me downCHORUS  
If you have a dream say yeah.. X2  
If you still believe say yeah X2  
CHORUS
